

Exchange Summit 2023 Singapore, from 4th to 6th December 2023

Digital Agency Japan (Mr. Hiroyuki Kato) and members of “Team Japan” participated in Exchange Summit 2023 Singapore.

During the PINT workshop, Mr. Kato makes Japan’s intention clear to develop “JP non-tax registered Invoice”. It is a specification for Japanese SMEs but at the same time for global businesses without a Japanese tax registration number.

APAC PA’s Panel Session

PINT Brothers

During APAC PA’s session, it becomes clear that each PA has a different position on “mandatory use of e-invoice”, but all agrees that e-invoice is an essential digital tool to accelerate business efficiencies.

During Japan’s session, “Team Japan” succeeds to show the use case to explore and highlight a value of “PINT” exchange by integrating with other systems and applications.
